The Honorable Randy Weber U.S. House of Representatives 107 Cannon House Office Building Washington, DC 20515

Dear Congressman Weber,

We write to thank you for introducing the Packaging and Claims Knowledge (PACK) Act, which seeks to address the inconsistency of state laws surrounding recyclable, compostable, and reusable claims on consumer packaging.

We strongly support the PACK Act because it creates a federal framework under the Federal Trade Commission for making recyclable, compostable, and reusable claims on consumer packaging. We appreciate that this uniform structure will replace the confusing patchwork of state regulations, helping businesses provide accurate and transparent information across state lines. By reducing consumer confusion and enabling informed choices, we believe the PACK Act will promote proper management of packaging materials at end-of-life, diverting them from landfills and advancing a circular economy.

We very much appreciate your leadership on the PACK Act, and we will continue to support your efforts to get this critical legislation enacted.

Sincerely,

Anchor Packaging
